What Does it Look Like to Be a Fully Engaged Member in a University?
To me being a fully engaged member means promoting my University at all costs. When a friend asks about the University I am excited to talk to them about it and give them my honest opinions.

Why UW and What I Hope to Gain?
I wanted to get out of Minnesota and be completely independent in a new and diverse place from my hometown. I also wanted to live in a big city and Seattle was the perfect place.

What Do I Want My Support to Look Like?
I have learning disabilities which make it really hard to do work in a timely manner. I would love support from professors and TA’s such as extensions and general help/meetings.

What Is Being Successful at UW?
To me, it is very important to balance getting good grades but even more important to network and set yourself up for the future. To be successful in college is to set yourself up for the future.

Academic and Personal Goals?
My biggest goal academically is to get into Foster. I’ve already begun talking with advisors and taking prerequisites. One personal goal is to get a job/internship for the summer. I really want to have a job in Seattle and learn how to use LinkedIn and build a solid resume.
What Opportunities Will I Pursue at UW?

RSO's
I plan to join the Husky Snow Club and the Finance Club. Both of these clubs will allow me to make connections and do something I’m interested in.

Advisors
My Brother mentor in my house and the foster advisor that I have been talking to are both great resources to help me with work, and class registration. They can help me get good grades and get into foster.

LinkedIn/Alumni
I hope to use both of these resources in order to achieve my goal of getting a job and earning money.

DRS Office
I plan to work with them to help me manage my learning disabilities and make it easier to get good grades and apply for jobs.
